Dear Mr. Higgs:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Re: Review & Evaluation of Sufficiency of Information

T74869

Application proposes change the place of use (POU) for nine groundwater irrigation rights: 45-2383 (4.75 CFS), 45-14413 (2.37 CFS), 45-14414 (2.37 CFS), 45-7004 (6.4 CFS), 45-7118 (2.4 CFS), 45-14412 (2.4 CFS), 45-7125 (3.14 CFS), 45-7186A (6.12 CFS), 45-7317 (3.35 CFS), 45-13904 (10.07 CFS), 45-13981 (4.60 CFS), 45-14415 (0.65 CFS), 45-14416 (0.66 CFS), 45-13982 (0.81 CFS), 45-14417 (0.11 CFS), and 45-14418 (0.12 CFS). Applicant also proposes to change the POU for surface rights 45-690 for 3.2 CFS (Lunch Creek, Dayley Creek, & Unnamed Stream) and 45-691 for 0.85 CFS (White Creek). Application proposes to change the POU of all the aforementioned rights from a 4,384-acre permissible place of use (PPU) to a 4,389-acre PPU, by incorporating five acres recently purchased in TWP 11S, RNG 24E, SEC. 33, NWSW, which is surrounded by the current authorized PPU.

Proposed changes occur within the ESPA. No model analysis required since the application does not propose any changes to PODs, flow rate, or volume. Application also occurs within the Oakley Valley Water District (140), so watermaster comments will be solicited. Due to the nature of the proposed changes, it is recommended this transfer be processed without a public notice and protest period.

- Authority to File:

The applicants are listed with the Department as the current owner for the included rights. Cloyd & Gwendolyn Searle signed the application as Trustees for the Cloyd Searle Family Trust. Kent & Marilyn Searle signed on behalf of the Kent Searle Family Trust as Trustees. Craig & Beverly Searle signed on behalf of the Craig Searle Family Trust as Trustees. Clifford & Terri Searle signed on behalf of the Clifford Searle Family Trust as Trustees. Kelly & Shawna Searle signed on behalf of the Kelly Searle Family Trust as Trustees.

- Water Right Validity:

Rights 45-690, 45-691, 45-2383, 45-7004, 45-7118, 45-7125, 45-7186A, 45-7317, & 45-13904 were partially decreed in the SRBA in May, 2005. Rights 45-13981 & 45-13982 were partially decreed in the SRBA in July, 2002. A review of recent aerial imagery indicates that the proposed changes occur on ground that appears to have been irrigated within the last five irrigation season, so forfeiture is not an issue.

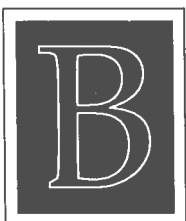

- Injury to Other Water Rights:
None anticipated or foreseen.

- Enlargement of Use:
None anticipated.

- Local Public Interest:
No issues anticipated.

- Beneficial Use/Conservation of Water Resources:
Proposed uses are recognized as a beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Searle Transfer

Dear Mr. Cooper:

The applicants purchased an additional 5.0 acres on February 10, 2012 and would like to include the parcel into the existing 4384.0 acre PPU. The PPU would be enlarged to 4389.0 acres. The warranty deed for the 5.0 acre parcel is attached to this letter and the legal description for the parcel is Township 11 South Range 24 East Section 33 NWSW.

No other aspect of the included water rights will be changing with this transfer. No ESPA Model analysis will be performed due to the none change in diversion rates and total volume extracted from the aquifer.

A minimal processing fee of \$200.00 will submitted to IDWR.

Sincerely,
