Chuck,
I'll ask Michele to provide an update on her progress on this one.

Jeff

Hi Jeff,

Could you check on the licensing of this permit? I submitted some additional measurements, new rating curve, and annual volume estimate in June of last year but haven't heard anything. The analysis was somewhat complex so I would request that take a look at it. Also we need to file another non-consumptive permit as described in my June 28, 2010 letter but I would like your guidance on what rate to apply for in this unique case.

Thanks,
Chuck

Jeff,

Yesterday I sent Michelle some additional information and analysis regarding the beneficial use exam for 01-10542, with a copy to you. Since it involves some fairly complicated hydrology, I would like you to take a look at it. Also, I would like your thoughts on an appropriate diversion rate to apply for on a new permit.

Thanks,
Chuck
