Re: Status of 85-7646 and unprocessed Relinquishment of Permit

Spoke with Eric Davis at Northern today and he is going to be meeting with the City of Lewiston regarding their other water rights within the next month or so. At that time, he will discuss this file with them and tell them of the option of abandoning the license.

Background: License 85-7646 was issued on October 31, 2012 out of the S.O. What the S.O. didn't know was that the permit holder had submitted a relinquishment form to the region prior to the license being issued. I do not know what date the request to Relinquish the permit was submitted as it is not date stamped. Now the question is whether license 85-7646 is valid, or was the permit relinquished before. If the City of Lewiston will Abandon the water right, then that will solve the problem.
