PROOF DEFICIENCY LETTER

RE: Permit No. 36-8242

Dear Permit Holder(s):

The Department has received your Statement of Completion for proof of beneficial use ("proof") filed for the above referenced water right. However, the Department is unable to process your proof statement until condition no. 7 of this permit has been complied with. Condition no. 7 of the permit states:

" Prior to any diversion and use of water under this water right, the right holder shall (1) provide evidence of participation in a mitigation plan, approved by the director, and administered by a ground water district or other recognized organization, or (2) provide individual mitigation approved by the director."

You need to contact the North Snake Ground Water District (NSGWD) and let them know that you are diverting ground water in accordance with permit no. 36-8242 so they can include you as part of the district. You can reach the NSGWD by phone at (208)324-8995, or through the mail at 152 E Main St. Jerome, ID 83338. This condition is a requirement which should have been met before diverting water. To provide you with information regarding this permit condition enclosed is a copy of the permit for your reference.

Please provide the Department with documentation showing evidence of participation in a mitigation plan. I will hold this matter for (30) days from the date of this letter. The Department will be able to process your proof statement upon receipt of the required evidence.

Please contact me at (208) 287-4945, if you have any questions.

Sincerely,

Darla Block
Technical Records Specialist
