APPLICANT

10. Remarks:

Application filed to appropriate waste water that has entered an existing pond for many years. Existing water right 36-16857 is utilized for this same pond; therefore this appropriation should result in no increased consumptive use. Listed storage volume of 43.9AF reflects amount of pond volume located on our property and evaporative storage losses of this portion of the pond. Pond volume is estimated at 22.5 AF which reflects pond surface area of 7.5 acres on our property times an estimated average depth of 3 feet. Evaporative losses are estimated at 21.4 AF which reflects the 7.5 acres times 2.86 AF per acre. (precipitation deficit value obtained from U of I website)

11. Map of proposed point of diversion and place of use attached? ☐

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.
