RE: Water Right License #98-07193

Idaho Department of Water Resources
7600 North Mineral Drive, Suite 100
Coeur d'Alene, ID 83815-7763

To Whom it May Concern,

I am writing this letter as a follow up to my request for a change in water rights.

On July 2, 2012 I mailed a request for a Change in Water Right Ownership, along with the required fee.

On July 12, 2012 I received notice that "... it was determined that the above mentioned water right was not appurtenant to the property described in the accompanying warranty deed."

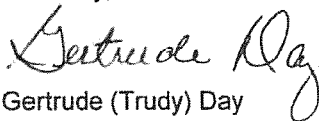

On investigation, it was discovered that the original description was mislabeled:
My property is in Township 64N, Range 02E, Section 3, NWNE

The original Water Right Ownership states that the water is for property located in SWNE.
This is where the error occurred. The Point of Diversion is in the NW of the NE, and the water is, and always has gone to the home situated in the NW of the NE.

In August of 2012 Senior Water Resource Agent Eric J. Davis came to the property in question, walked the property, took GPS readings and photographs to document the Point of Diversion and the place of water use. As you can see by the supporting documentation, this is the only home that has ever used this water and is the only house that is using water from the POD at this time.

I am asking that the Idaho Department of Water Resources correct this error, change the legal description for this right and change the rights to me, Gertrude Day. If you have any questions, please do not hesitate to contact me at 208-267-5320 or Mr. Davis at 208-762-2800.

Sincerely,

Gertrude (Trudy) Day
