MEMORANDUM

DATE: February 11, 2013
TO: Rachel Sommer
FROM: Sandy Thiel
RE: Application for Permit No. 78-12402

The purpose of this memo is to provide the Planning Section's comments on the Application for Permit No. 78-12402 from the Little Salmon River. The application indicates that the applicants intend to divert 0.06 cfs from the stream for irrigation of two acres. The applicant should be aware that the Idaho Water Resource Board holds a minimum stream flow water right, 78-12362, on the Little Salmon River, at the proposed point of diversion. As a junior water right holder the applicant's water may be curtailed when the minimum stream flow is not being met. The Idaho Water Resource Board would like assurance that this water right will be actively administered to protect the Board's minimum stream flow right.
