Scott,

I made the corrections you requested and have attached them and the 2013 irrigation shapefile to this email.

Thanks,

Subject: RE: Transfer Application for Kamlah Roundy

Thanks for the map Kristin.

Can you send me the Shapefile as well if it's not too much of a hassle?

I've gone through the application and I've noticed a few small errors that need to be changed. I figure you can just change the errors and submit the pages that need changed as an amendment.

- 1) Map that shows the permissible place of use. In the bottom of Section 30 the Permissible place of use layer extends into section 31 which is not on the property of Mr. Roundy. I mentioned this to him when he came in with his wife and we was totally fine with us removing that little area. Can you resend the same map with the corrected boundary? It shouldn't change the total acres since our calculations didn't include any acres from section 31.
- 2) Part 1 B3 The POD in section 20 has an incorrect $\frac{1}{4}$. It is written as NWSESW but should be NESESW.
- 3) Part 1 B4 The POU for Section 29. The totals acres has been added incorrectly. It is written as 408 Acre Totals but should be 409. Therefore changing the total PPU to 1777. (not as patriotic, but correct.)

If you can correct those, we will amend them to the current application so no new signatures will be required. You can just email them if you wish.

If you have any questions feel free to call or email me.
