Re: Field Report Narrative

An in house field exam was conducted. ArcMap taxlot and Bing and historical aerial photography were the technical tools used, as well as review of IDWR backfiles. The applicant has right no. 63-33596 for 70 acres and 0.87 cfs contiguous to the acres permitted herein. Parent right 63-8563 was split into 63-33595 for 2 acres and 0.02 cfs and applicants overlapping right, 63-33596 for 70 acres and 0.87 cfs. The field exam report for parent right 63-8563 stated the system limit is 0.89 cfs for 72 acres and was supplemental to Wilder Irrigation District surface water.

The owner of 63-33595 has a well on his property but has not filed to transfer the POD to his property so the combined use condition will still have to include this right.

This application was filed for 4.6 acres right in the middle of the 63-33596 fields. The backfile is clear that is was excluded but no reason why. So, the applicant filed for these acres that have clearly been irrigated for many years.

I reviewed aerials for several years and found that the maximum ever irrigated on what is currently the Applicants property was about 72 acres. I recommend licensing 3 acres for a total of 73 acres to allow for a margin of error. There is no additional cfs available for licensing so the total quantity for the applicants rights will be limited to 0.87 cfs. Volume to be licensed is 13.5 af.

A condition limiting the 3 rights 63-33595, 63-33596 and 63-33592 to 75 acres and 0.89 cfs should be added. The other conditions have been met.

IDAHO DEPARTMENT OF WATER RESOURCES
Water Permit Report 63-33592

WATER RIGHT NUMBER: 63-33592

Owner Type: Name and Address
Current Owner WESTERN FARMS INC
16909 MARSING RD

Priority Date: 10/20/2011

Status: Active

Source: Tributary:
GROUND WATER N/A

<u>Beneficial Use:</u>	<u>From / To</u>	<u>Diversion Rate</u>	<u>Annual Volume</u>
IRRIGATION	03/01 to 11/15	0.090 CFS	
	<u>Total Diversion</u>	0.090 CFS	

Location of Point(s) of Diversion:

GROUND WATER SESE Sec. 11, Twp 03N, Rge 04W B.M. CANYON County

Place of Use:

IRRIGATION within CANYON county

T03N R04W S11 NESE 4.6

Total Acres: 4.6

Conditions of Approval:

1. 004 This right does not grant any right-of-way or easement across the land of another.
2. 065 The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
3. 104 If the surface water right(s) appurtenant to the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
4. 121 The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
5. R65 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
