Re: Field Report Narrative

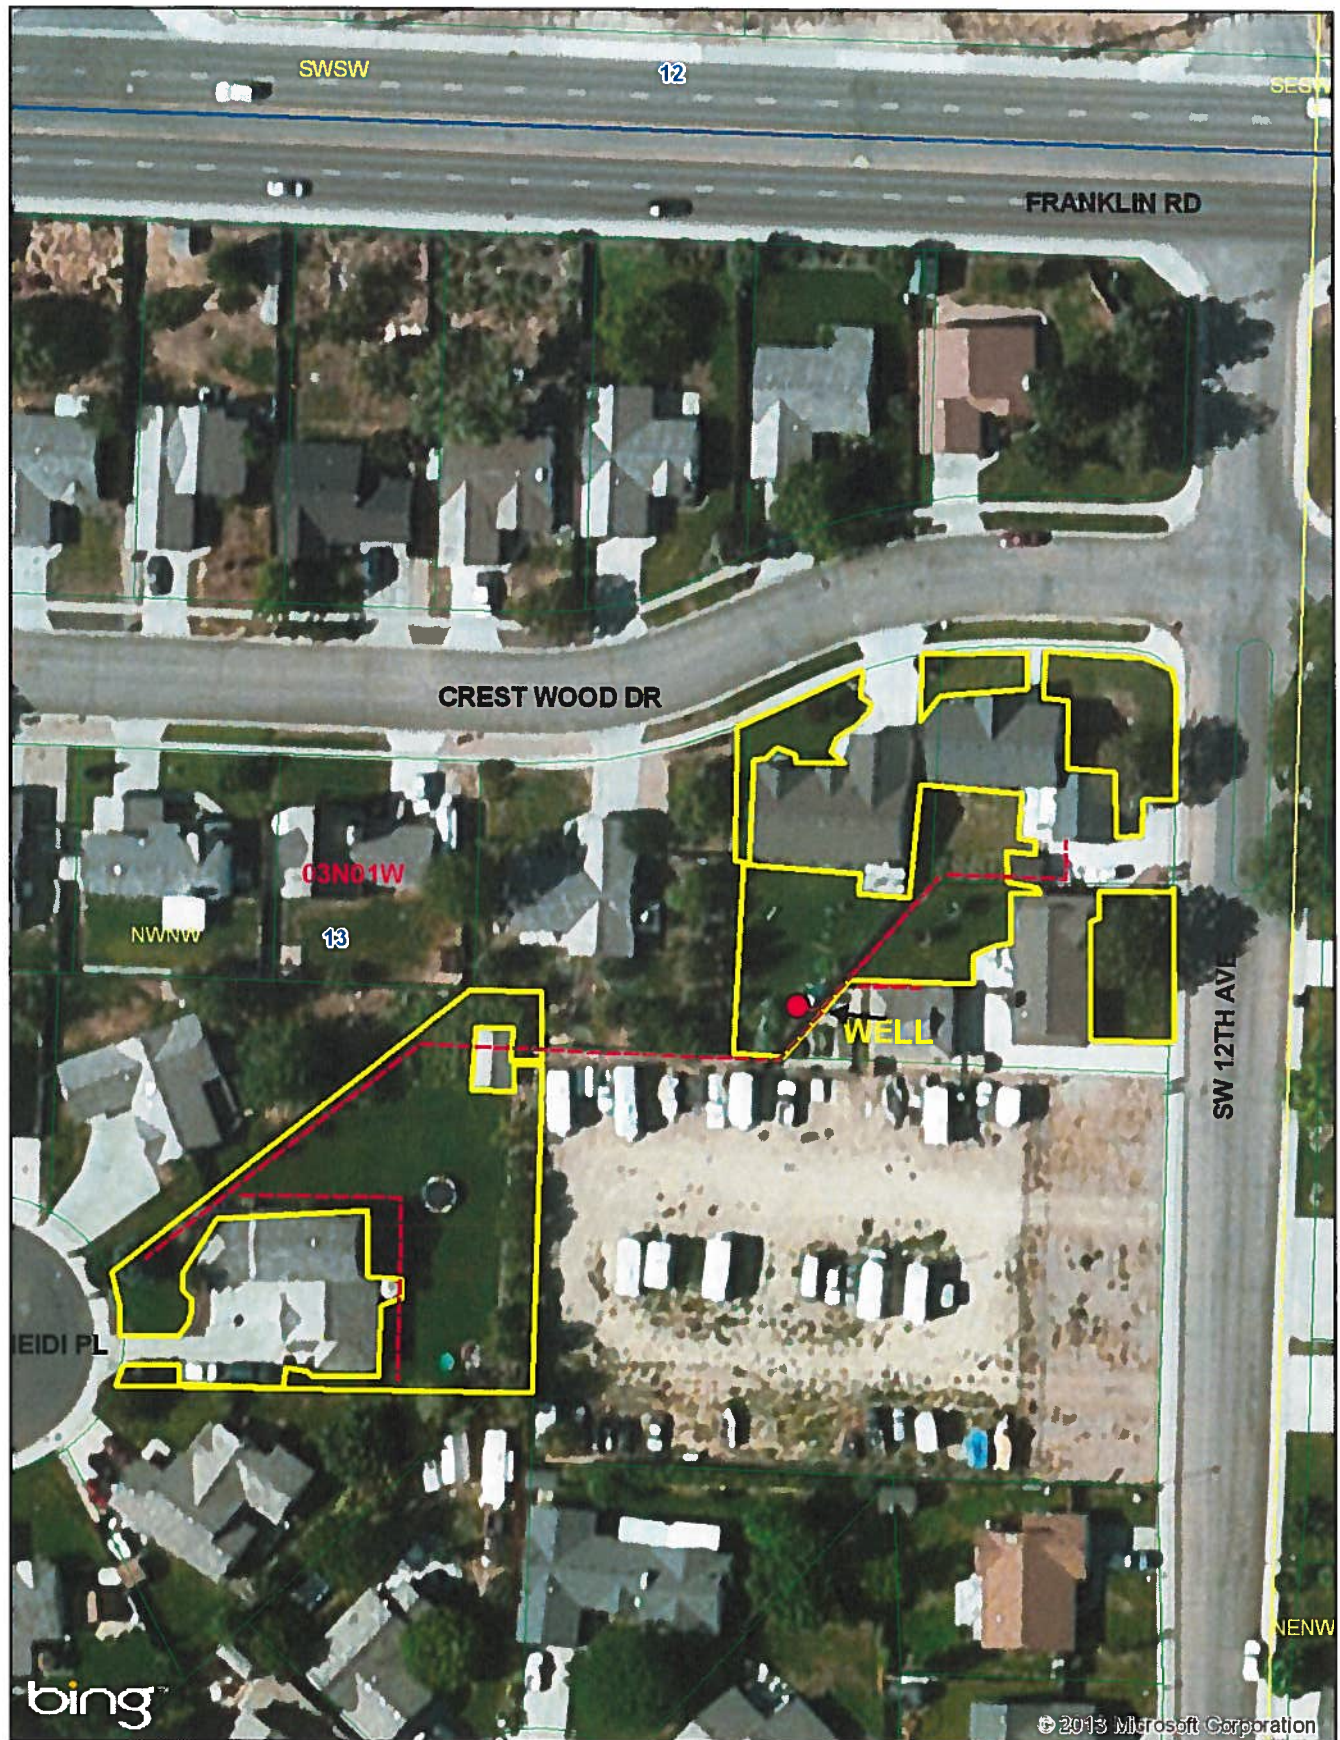

This qualifies for an in-house exam; however, I did do an on-site exam to GPS the well that is the point of diversion. I also took a picture of the well. The domestic use is irrigation of 4 lots; three of the lots are in the Woodard Estates Subdivision, and the forth lot is in the Crestwood Estates Subdivision, in Meridian, ID. Mr. Walker, the permittee, accompanied me.

The physical addresses of the yards irrigated are, in Woodward Sub: 1263 Crest Wood Dr [Lot 1], 1251 Crest Wood Dr [Lot 2], and 95 SW 12th Ave [Lot 3]. The address of the irrigated lot in Crestwood Estates is 130 S Heidi Pl [Lot 18]. The 6-inch diameter well is located on the 1261 Crest Wood Dr property. Internal domestic water is provided by City of Meridian municipal water.

Mr. Walker did not know the pump or motor specs. There is one pump with a 1 inch line from the well to each of the sprinkler systems of the 4 lots. There appears from ArcMap to be less than one acre being irrigated under the domestic use, however, it is close so I recommend licensing the permitted quantity of 0.03 cfs and 4.5 afa. This is the IDWR standard for small acreages.

Point of diversion on lot 1

63-32344. 2011 BING PHOTOGRAPHY. PLACE OF USE OUTLINED IN YELLOW. RED DOTTED LINE IS ESTIMATED LOCATED OF THE 1 " LINES TO EACH OF THE SPRINKLER SYSTEMS OF THE 4 LOT IRRIGATED.

Re Permits To Appropriate Water Nos. 63-32344 and 63-32108

Dear Mr. Walker:

Permit no. 63-32344 referenced above was issued to you for domestic use from ground water. The domestic use is the irrigation of four lawns, approximately 1.2 acres, associated with four homes in the Woodward Estates Subdivision.

Permit no. 63-32108 was issued for domestic use in one home and five acres of irrigation from an artesian well. The place of use is southwest of the intersection of Cherry Lane and County Line Rd.

This letter is to request that you call me to schedule the field exams for these permits. The field exams are required by Idaho law before a permit can be licensed at which time it becomes a water right. The license is the end product needed for continued water use.

Please call me at 208.334.2190, by September 28, 2012, to set an appointment for the exam. Please have ready information regarding diversion and delivery works on the two sites, such as pump and motor specs, at that time in preparation for the exam. Thank you.

Sincerely,

Vicky Music
Sr. Water Resource Agent
