

Idaho Department of Water Resources

MEMORANDUM

Date: November 26, 2012

File: Transfer 78265- Sauer

Subject: ESPA Analysis

Transfer 78265 changes POD's and creates a combined place of use for seven water rights. Well(s) in T07N R34E Sec 5 NESE will be removed from all rights. Applicant does not wish to use those wells. The rights are within the ESPA boundary but are within adjacent cells therefore the ESPAM analysis is not required.
