Dear Mr. Pancheri;

It was a pleasure speaking with you the other day. As we discussed, I have amended the transfer application submitted in February.

This amendment combines the place of use for water rights 33-32A, 33-33A, 33-35A, 33-2068A, 33-10997 and a portion of 33-7202. The total acres available for irrigation in this location are 188.00. In addition to the place of use update, the split portion of 33-7202 will update the points of diversion to match the existing points of diversion for 33-2068A, and 33-10997.

This amendment should also satisfy the BLM's protest with this transfer. If everything looks alright please sign and return. The Department is in the process of changing our transfer process, could you please return as soon as possible to avoid any further delays?

If you have any questions, please let me know.

Sincerely,

Kerrie Mathews
