RE: Water Right No(s). 74-15836, 74-15961, 74-15879 & 74-15880

Dear Water Right Holder(s):

The department received an ownership change for water right 74-15836 on April 23, 2012. During our review the department discovered that there was error in the place of use in the original water right number 74-2047C. The error would affect several previous ownership change splits. Transfer 78306 corrected the place of use description of water right 74-2047C. After the place of use of the water right was corrected it was possible to correctly split the right with the ownership changes previously received. The appropriate changes have been applied. Please find attached an updated computer generated report showing the elements of the water right and the revised proportionate split.

Also, please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Jonie Barg
Technical Records Specialist
