

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

RECEIVED

MAR 11 2013

Department of Water Resources
Eastern Region

NOTICE OF PROTEST

This form may be used to file a protest with the department under sections 42-108B, 42-203A, 42-203C, 42-211, and 42-222, Idaho Code. The department will also accept a timely protest not completed on this form if it contains the same information.

1. Matter being protested 78387
2. Name of protestant Steven Johnson
3. Protestant's Representative for service (If different than protestant)

4. Service mailing address 1019 Lee Creek Rd. Leadore Id. 83464
5. Service telephone no. (208) 768-2000 Email Address: _____
(208) 313-4096

6. Basis of protest (including statement of facts and law upon which the protest is based)

The main ditch runs about 2-2½ miles across a rocky flat so there is ditch leakage. If we leave water out could cost me 2-3 days on the front end and another 2-3 days at the end of irrigation season, that is a big loss when you only have 70 days.

(additional pages may be attached to describe nature of the protest)

7. What would resolve your protest? I suggested to leave the water in the main ditch and spittin it just above there irrigating points by putting measuring device in.

I hereby, acknowledge that if I, or my designated representative, fails to appear at any regularly scheduled conference or hearing in the matter of which I have been notified at the address above, the department may issue a notice of proposed default against me in this matter for failure to appear. I also verify that I have served a copy of this protest upon the applicant.

Signed this 11 day of March, 20 13.

Steven Johnson
Protestant

Protestant's Representative

Receipt # E038481

3-4 weeks at emigration a year what I see if this happens, it'll ^{could} devalue the price of my ground tremendously.

These new ditch ^(Stoddard ditch) ~~run~~ ^{run} right along side of the ditch that we are together on, there is ~~a~~ stretch of this ditch that leaks ~~it~~ into the Stoddard ditch which is a quite abit so that they put a dam into these Stoddard ditch to irrigate there ground with it. Also the Stoddard ditch is down Hill of the other ditch which run along the other ditch with in about 10ft ^{separately} it. So ~~it~~ they got to rebuild the Stoddard ditch a lot bigger to handle all the ^{new} water that they are going to put together in it. it'll be a lot harder to hold that bank between them.

I don't know ~~what~~ what going on for shore Eunice is saying one thing and Kerry at the water resource board is saying another ~~thing~~ thing. we need to get on the same page. so that we know where we are at.

When does this this application take affect or expires?

If Eunice move there water out of the ditch ~~that~~ that tell me that she doesn't want it there, she dose not have the option to bring it ~~to~~ ^{back}.
