DEPT. OF WATER RESOURCES
SOUTHERN REGIONSTATE OF IDAHO
DEPARTMENT OF WATER RESOURCESTransfer No. 78443MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at <http://www.idwr.idaho.gov/>.

Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.

Yes N/A * Means the item is always required and must be included with the application.

- * Completed Application for Transfer of Water Right form, Part 1.
- * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application.
- * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- * Correct fee submitted with transfer application form. (Fee schedule is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-9.

- #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- #2a Water Right ownership documentation if Dept. records do not show the transfer applicant as the current water right owner. Additional fee(s) required for water right ownership changes; see fee schedule.
- #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). Additional fee(s) required for water right ownership changes; see fee schedule.
- #3 Documentation of authority to make the change if the applicant is not the water right owner.
- #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at <http://www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm>.
- #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use.
- #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see fee schedule.
- #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- #9 Other. Please describe: Attachment A (Summary of District Water Rights)

5. General Information:

a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future: _____

The new point of diversion will be hooked direct to the district water users. All systems will have lockable valves controlled by the district, and flow meters to measure usage.

b. Who owns the property at the point(s) of diversion? A & B Irrigation District water users

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system: A & B will prepare legal grants of operation and maintenance easements.

c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

If yes, Attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: Does not apply

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

d. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

The boundaries for the place of use are not proposed to be changed, or the total number of acres under the district water rights will change.

e. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

The water rights on attachment A are the only known rights to serve the lands involved.

PART 3

A. PLAT MAP (See Part 3A of Instructions for application for transfer for complete requirements.)

- Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a.**
- If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b.** If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

B. CHANGES IN NATURE OF USE (Water Balance)

- If you propose to change the nature of use or period of use of all or part of the rights(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a.**

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b.**

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above.:

With this transfer application, A & B Irrigation District proposes to:

- add 2 new points of diversion
- delete 11 points of diversion

The new points of diversion are needed to supplement existing district well systems. There will be no change in the place of use, or enlargement of the acreage under the district's water rights.

The points of diversion that are to be deleted are no longer used by the district because of well capacity problems.

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 78443**

A & B IRRIGATION DISTRICT, PO BOX 675, RUPERT, ID 83350-0675 has filed Application No. 78443 for changes to the following water rights within JEROME and MINIDOKA County(s): Right No(s). 36-15127A, 36-15127B, 36-15192, 36-15193A, 36-15193B, 36-15194A, 36-15194B, 36-15195A, 36-15195B, 36-15196A, 36-15196B, 36-2080; to see a full description of these rights and the proposed transfer, please see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp. The purpose of the transfer is to change a portion of the above rights as follows: Transfer proposes adding two new wells and removing eleven wells as authorized points of diversion within the A & B Irrigation District system. One of the two new wells is located approximately 8.1 miles west and 4.1 miles north of Rupert and the other new well is located approximately 3.1 miles west and 8.9 miles north of Rupert. The two new wells will be limited to the diversion of 7.0 cfs for use in the A & B Irrigation District system. Currently 12 water rights allow for the diversion of up to 1100.0 cfs from 193 authorized diversion points (wells) located in Jerome and Minidoka counties for the irrigation of up to 66,686.2 acres within the system. The application will allow for the continued diversion of water from 184 authorized points of diversion to maintain the overall production capacity of the A & B Irrigation District system.

For additional information concerning the property location, contact Southern Region office at (208) 736-3033. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Southern Region, 1341 Fillmore St, Suite 200, Twin Falls ID 83301 together with a protest fee of \$25.00 for each application on or before April 8, 2013. The protestant must also send a copy of the protest to the applicant.

Dear Ms. Yenter:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form as necessary, and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

MEMORANDUM

Date: March 11, 2013
To: Transfer 78443 File
From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Transfer proposes adding two new wells and removing eleven wells as authorized points of diversion within the A & B Irrigation District system. One of the two new wells is located approximately 8.1 miles west and 4.1 miles north of Rupert and the other new well is located approximately 3.1 miles west and 8.9 miles north of Rupert. The two new wells will be limited to the diversion of 7.0 cfs for use in the A & B Irrigation District system. Currently 12 water rights allow for the diversion of up to 1100.0 cfs from 193 authorized diversion points (wells) located in Jerome and Minidoka counties for the irrigation of up to 66,686.2 acres within the system. The application will allow for the continued diversion of water from 184 authorized points of diversion to maintain the overall production capacity of the A & B Irrigation District system. All 12 of the rights involved with the transfer were subject to recently approved transfer # 77744 (approved April 9, 2012). Note that Attachment B of this transfer application indicates that the new wells will divert 7.00 cfs. Since the filing fee for the application was based on this 7.00 cfs amount, a condition limiting the diversion from these new wells to 7.00 cfs will need to be implemented. The wells involved with this transfer are located within the ESPA and Water District 130 and are all located within the same, or an adjacent, groundwater model cell as an existing A & B Irrigation District irrigation well so a groundwater model analysis is not required.

- **Authority to File:**
The applicant is listed as the present owner on the rights involved with the transfer. The United States Bureau of Reclamation is listed as the current owner on the rights involved with the transfer. The application includes a copy of a letter from the United States Bureau of Reclamation consenting to the transfer.
- **Water Right Validity:**
The rights involved with the transfer were decreed in the SRBA. Recent aerial photography indicates that the rights involved with the transfer appear to have been used. The rights involved with the transfer were subject to recently approved transfer # 77744 (approved April 9, 2012).

- **Injury to Other Water Rights:**
None anticipated. The wells involved with this transfer are located within the ESPA and Water District 130 and are all located within the same, or an adjacent, groundwater model cell as an existing A & B Irrigation District irrigation well so a groundwater model analysis is not required.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No negative impact anticipated. Application will be subject to public notice.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on Economy of the Local Area:**
None anticipated.
- **Effect of the Agricultural Base of the Local Area:**
None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
