

MEMORANDUM

Date: February 6, 2013

To: Transfer
78412

From: Blake Jordan

Re: Review & Evaluation of Sufficiency of Information

This transfer proposes to change the point of diversion for water right 22-14018. The applicant is seeking to fix a legal description discrepancy for the point of diversion described under water right 22-14018. Application for transfer 77444 (approved 10/7/2011) placed the point of diversion in the SESESW of 06N, 39E, Section 1. The actual point of diversion is located in the SWSWSE of 06N, 39E, Section 1. The applicant seeks to correct this error by changing the point of diversion to the SWSWSE of 06N, 39E, Section 1.

Authority to File:

The applicant is the current owner of water right per IDWR record and owner of property per Madison County Public Parcel Mapping.

Water Right Validity:

Decreed in 2002. The parent water right to this water right was leased to the water supply bank. Water Supply Bank Expiration date was 12/31/2012. This water right has a mitigation schedule development period which resulted from transfer 77444. Currently water right 22-14018 is authorized to irrigate 2.0 acres (year 2011 through 2018). According to the applicants map, there is approximately 1.9 acres being irrigated. Forfeiture is not an issue.

Injury to Other Water Rights:

Inside the ESPA and within WD 100. POD is not changing model grid cells. No ESPA analysis required. This transfer was advertised and there are no protests. Watermaster does not oppose transfer.

Enlargement of Use:

No issues identified.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Effect on Economy the Local Area:

No issues identified.

Effect on Agricultural Base of the Local Area:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
