

MEMORANDUM

Re: Transfer Evaluation

Transfer No. 78354 proposes to change the place of use for water right 74-695. Water rights 74-7095 and 74-695 have a 13-acre place of use overlap. The approval of this transfer will not affect the 13-acre overlap. The point of diversion for right 74-695 is not changing.

Authority to file:

Water right 74-695 is currently in the name of Kester and Mona Cockrell. The proposed place of use for this water right is owned by the same individual.

Validity of the Water Right:

Water right no. 74-695 was decreed on November 6, 2007. Aerial photography shows consistent irrigation. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

No injury to other water rights was identified. The application was advertised; no protests to the transfer were received. The water master for water district 74 was notified of the transfer, but did not provide comments.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified. The existing 13 acre overlap between water right 74-695 and 74-7095 was maintained and enlargement does not appear to be an issue.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this transfer application.
