RE: APPLICATION(S) TO RENT WATER FROM THE WATER SUPPLY BANK

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of your application(s) to rent water for lawn and pasture to irrigate 3 acres from the Idaho Water Resource Board's Water Supply Bank (Bank). The Department will review your application(s) as resources allow. If the application(s) is not processed prior to the end of the proposed rental period, it will be returned to you. Please note that you are not authorized to use water without a valid water right or an approved Water Supply Bank rental agreement.

Please be advised, if your application seeks rental of water from the Eastern Snake Plain Aquifer (ESPA), the total cost of your rental will likely include additional mitigation water required to offset the effects of the proposed change in water use.

Your Application to Rent Water From the Water Supply Bank (application) did not include the required Map listed under Part C of the application. I researched your previous rental documents and did not find a map to confirm the location of the property you wish to irrigate and this application includes an additional quarter-quarter. I also identified that the property for the proposed well at 2242 N Edgewood Road is located in the **SWNW** of Section 3, T4N, R1E which is different than the legal description of the Point of Diversion (POD) and Place of Use (POU) described on the application.

I have included a GIS map view that includes all the quarter-quarters listed on the application. The two parcels I located under ownership of James R & Arlene McCauley Trust outlined in blue are located in the SWNW of Section 3. Perhaps there are other parcels I missed. Please use this map to identify the correct proposed POD and POU of 3 acres within the 40-acre quarter-quarters. Draw an outline around the proposed irrigated acres, mark the POD with an "x", date and sign on the border, and return to us for processing your rental.

We will use the submitted map to confirm the location of use. If it is not in the NWNW as described in the authorization signed by James McCauley submitted with your application, please provide a corrected agreement within 14 days so I can complete the processing of your application.

Additionally, it is possible the requested use may be approved for subsequent years only or not at all. Filing of the rental application itself does not authorize diversion and use of water. **You are not authorized to divert any water for the purposes described in this application until you have paid the rental fee and you and the Department have both signed a rental agreement.**

Additional information about the Bank may be found on the Department's web site www.idwr.idaho.gov.

Sincerely,

 Pamela Skaggs
Water Rights Supervisor
