

MEMORANDUM

DATE: March 07, 2013
TO: Permit File No. 35-14013
FROM: Darla Block
RE: Extension Received then Phone Call Requesting Statement of Completion & Address Change Forms

The proof of beneficial use due date listed on this permit is January 01, 2013.

On January 08, 2013, a lapse notice was sent to the permit holder (Chris Blake).

On January 16, 2013, the Department received a Request for Extension of Time form from Robert L. Harris of Holden Kidwell Hahn & Crapo on behalf of Chris Blake (permit holder).

On February 06, 2013, Craig Saxton received a phone call from Amanda Blake requesting that the Department mail her a proof of beneficial use form and a change of address form to: Amanda Blake 1121 N 575 E Firth ID 83236

On February 08, 2013, I sent the requested forms to Amanda Blake.

On several occasions I attempted to contact Chris Blake at the number provided on the extension request form, and Amanda Blake at the phone number provided to me in the email from Craig Saxton dated February 06, 2013. I left several messages with both parties regarding filing of the extension request and whether or not they planned to file a statement of completion form instead. I received no response to any of the messages I left.

Today, I called Rocky Mountain Environmental Associates listed on the extension request and spoke with Keith C. Wilson. Keith informed me that the extension request was filed in order to keep the permit alive and give him time to conduct the beneficial use field exam. The statement of completion form and field examination report will be filed together at a later date.

Today I processed and mailed the approved request for extension of time to Chris Blake at the address listed on the extension form, and cc'd Rocky Mountain Environmental, Robert L. Harris of Holden Kidwell Hahn & Crapo, and Amanda Blake.
