

MEMORANDUM

Date: April 18, 2006
To: Water Right File 31-7567
From: Shelley Keen *SK*
Re: Licensing Review

I found no point of diversion or place of use overlaps for this water right. The point of diversion is within the boundaries of Water District 110, which was just formed. In the 2004 aerial photography the pivot corner in the NWNWNW of Section 30 appears to be irrigated, but it was not reported by the examiner after his visit in 2000. Because the pivot corner may have been added after proof was submitted and the field exam was conducted, I am not including it in the recommended license.

A licensing amendment is necessary to change the point of diversion and to add the 5.4 acres in the NWNW of Section 31.
