From: Wally Adams, et al
Subj: Water Right Permit # 95-09440

RECEIVED

FEB 06 2013

DEPARTMENT OF
WATER RESOURCES

Mrs Hershey,

There is presently no structure on the property nor is there electricity.

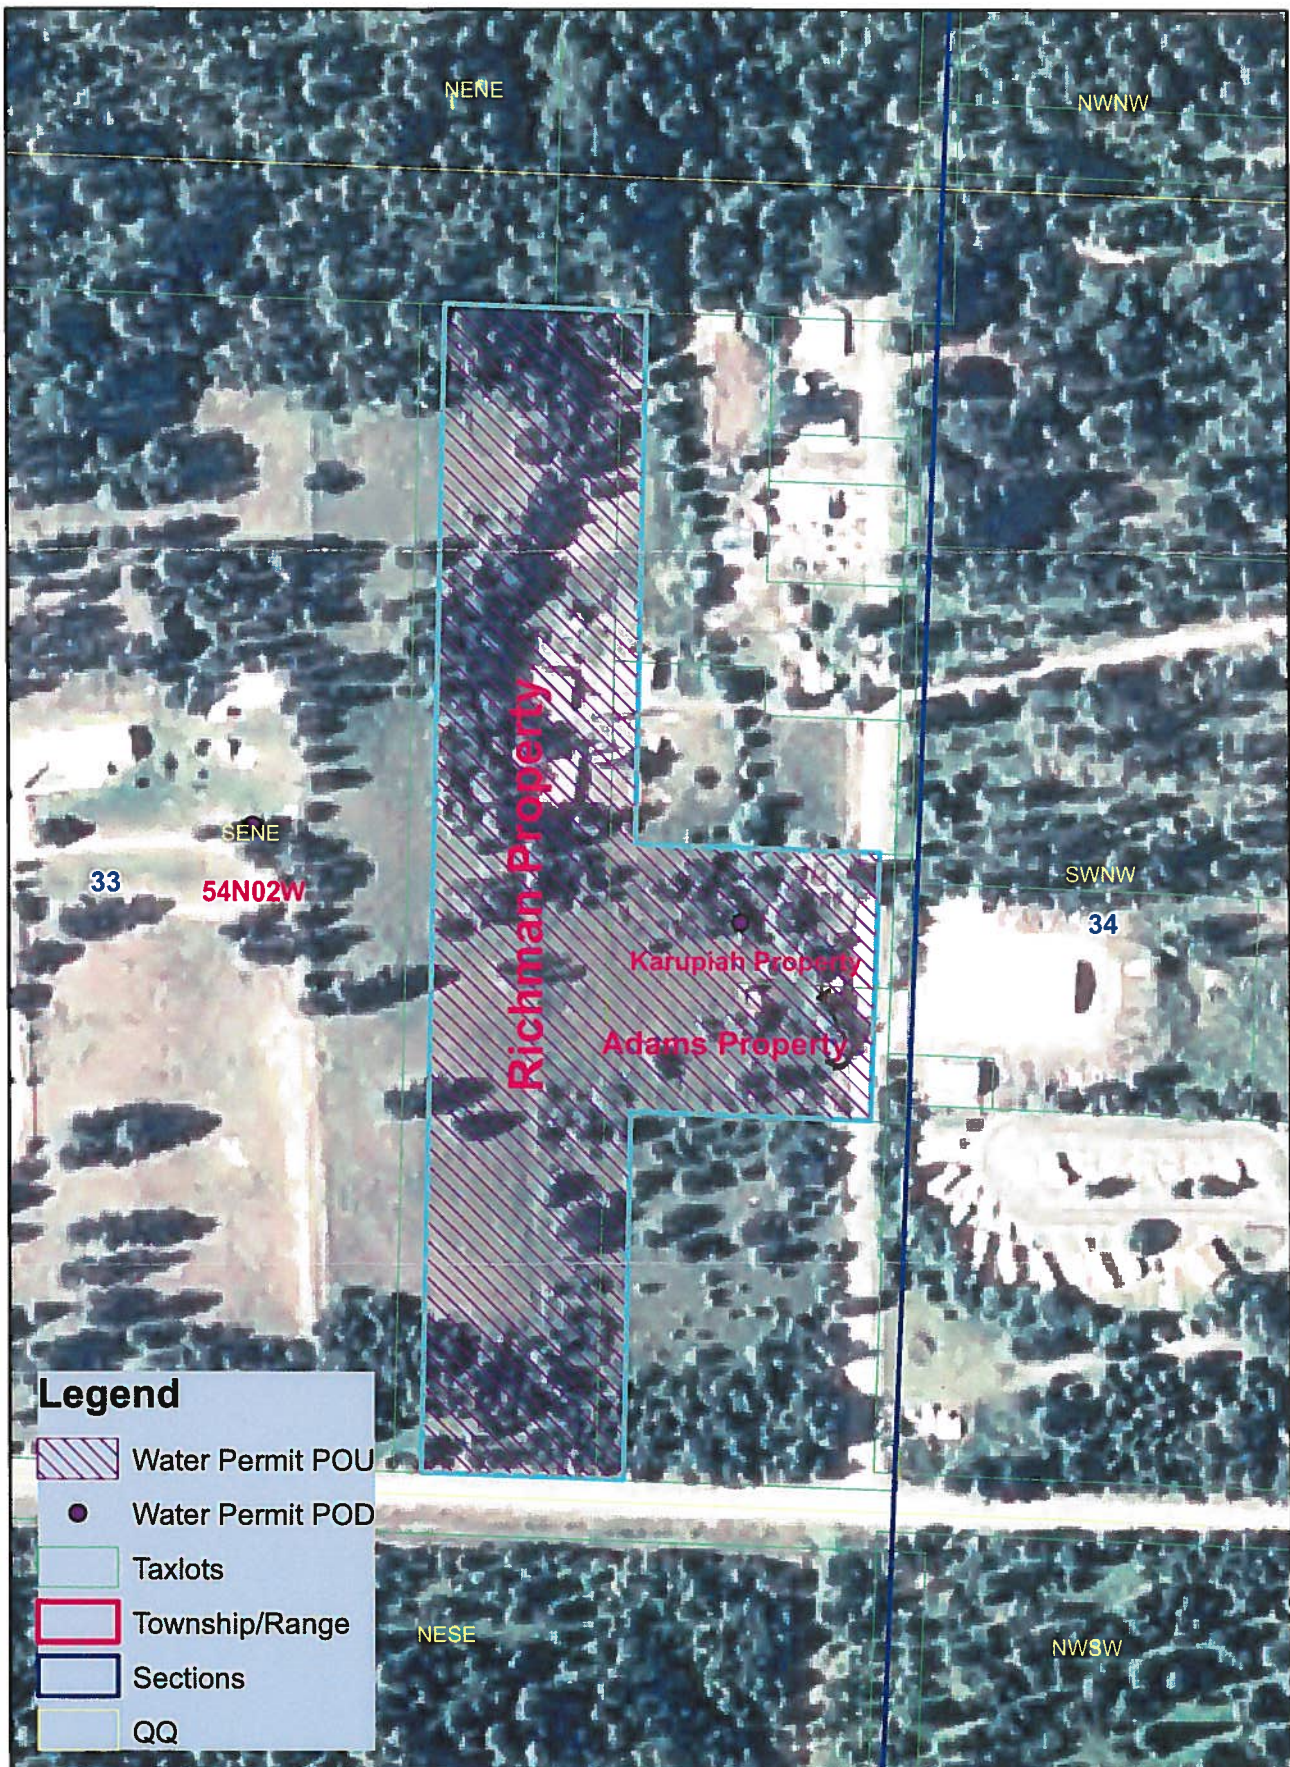

We have installed a gravity flow system which consists of a 4" pvc pipe 4' long laid in the stream prox 10' on our side of the Karupish/Adams line. This runs down to 1 1/2" and exits the stream prox 100' down stream where it provides irrigation for a garden plot. The water is returned to the stream when not in use for irrigation via a valve.

If you have further questions, please do not hesitate to call me @ 208 765-1307 or write to 600 W. Hubbard #39 Cd # 83814. The site is easily accessible for your inspection.

Yours truly,
Wally Adams

Does it make any difference??? I did not relate 'structure' with RV site.....I was thinking 'stick built'.....thank you Jean, Mrs. Adams

Mr. Adams,

Thank you for responding to my request for more information. In your letter the Department received on February 6, 2013, you stated there was no structure currently on the property. Do you park a camp trailer, RV or tent on the site at any time during the year? Or is the water strictly for irrigation of a garden plot?

Thank you for your help in this matter.

RE: Permit No. 95-9440

Dear Permit Holders:

The Department of Water Resources sent you a letter requesting additional information January 14, 2013, for the above referenced Permit. The information requested was the type of dwelling that is located on the property for which the permit is being used. Also sent was a map requesting you mark the place of use and point of diversion. As of this date the Department has not received a response.

If I do not receive the amendment within fourteen (14) days, I will assume you are no longer interested in obtaining a water right license and your permit will be voided. In case the map I sent you has been misplaced, a new one is enclosed.

If you have any questions, please contact me as soon as possible at (208) 287-4942.

Sincerely,

Jean Hersley

RE: Water Right Permit No. 95-09440

Dear Permit Holder(s):

The Idaho Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit.

Additional information is needed before the Department can issue the license. IDWR needs to know what type of dwelling is located on the property for which the permit is being used. Also, please mark the location of the place of use and point of diversion on the enclosed map and return to IDWR within 14 days. After we receive the information, IDWR will continue processing your license.

If you have any questions, please call me at (208) 287-4942.

Sincerely,

Jean Hersley
