Subject: Application for Amendment of Permit 86-7372

Hello Heidi,

I left you a voice this afternoon, but wanted to follow up with an e-mail.

We received the Application for Amendment of Permit 86-7372 along with the \$100 filing fee on February 15, 2013. However, the amendment only lists one point of diversion. I think your intent was just to identify the point of diversion where the legal description needs to be changed, however, by only listing one, the amendment indicates that you are dropping the other three points of diversion.

I have attached an application for amendment for licensing purposes. If you wanted to submit the attached amendment with a signature, we will consider that a request to withdraw the February 15th amendment.

Please take a look and give me a call if you have any questions.

Respectfully,

Craig L. Saxton
