STATE OF IDAHO

OFFICE OF THE ATTORNEY GENERAL

LAWRENCE G. WASDEN

February 4, 2013

RE: Amended Motion for Order of Interim Administration in Administrative Basin 37, Parts 2 and 3

Dear Water User:

The enclosed documents relate to the State of Idaho's Amended Motion for Order of Interim Administration, which seeks District Court authorization for administration of both surface water and ground water rights in the Idaho Department of Water Resources' (IDWR) Administrative Basin 37, Part 2 (Camas Creek Drainage) and Part 3 (Upper Big and Little Wood River drainages). The Snake River Basin Adjudication (SRBA) started over twenty years ago and is now nearing completion. IDWR completed its recommendations of Basin 37 Parts 2 and 3 area water right claims filed in the SRBA and nearly all of those claims have since been decreed by the SRBA District Court.

The purposes for the interim administration request are to obtain authority for the Director of IDWR to create or revise water districts, and to provide for long-term administration of surface and ground water rights from hydraulically connected sources. The first step in this process is the notification of potentially affected water right holders concerning the request and a hearing on the matter by the SRBA District Court. Therefore, this mailing is being sent to all recorded SRBA claimants in Administrative Basin 37, Parts 2 and 3, as well as holders of licensed and permitted rights in these areas that were not claimed in the SRBA. The list of affected claimants and other right holders is on file with the Court as Exhibit 1 to the Certificate of Service filed by the State.

This notice is provided for informational purposes as required by Section 42-1417(2), Idaho Code. This notice and the hearing scheduled by the SRBA District Court do not affect the status of your water right(s) on record with IDWR and the SRBA District Court, and will not result in any water rights being taken away, diminished or re-adjudicated. Any order issued by the SRBA District Court granting interim administration simply means that IDWR may proceed with future administration of water rights in Basin 37, Parts 2 and 3 in accordance with the individual water right decrees issued by the SRBA Court or recommendations pending before the SRBA Court.

Enclosed with this mailing are the following documents: (1) Amended Motion for Order of Interim Administration; (2) Brief in Support of Motion for Order of Interim Administration; (3) Affidavit of Tim Luke, IDWR Water Compliance Bureau Chief; and (4) Order Setting Hearing on State of Idaho's Amended Motion for Interim Administration. These documents can also be accessed, along with the Certificate of Service and accompanying Exhibit on the IDWR website.

If you have any questions, please call IDWR at 208-287-4800.

Sincerely,

for 
Ann Vonde
Deputy Attorney General
