RE: Letter 02/25/2013 Big Willow Ranch Inc-- JG Schwarz
POD ownership

The point of diversion for the above permit is an established POD. Other ranch reservoirs also receive flow through this diversion location—water rights 65-7136, 65-7603, 65-23479, 65-2297. This permit does not propose any new diversion works or conveyance on state lands.

It has been brought to my attention
that my permit no 65-23479 application
approved 8/15/12 was filled out incorrectly.
My current point of diversion which will
also be the point of diversion for the
above mentioned permit is actually on
State of Idaho lands and not on
my land under the name of JGR Schwarz
or Big Willow Ranch LLC.

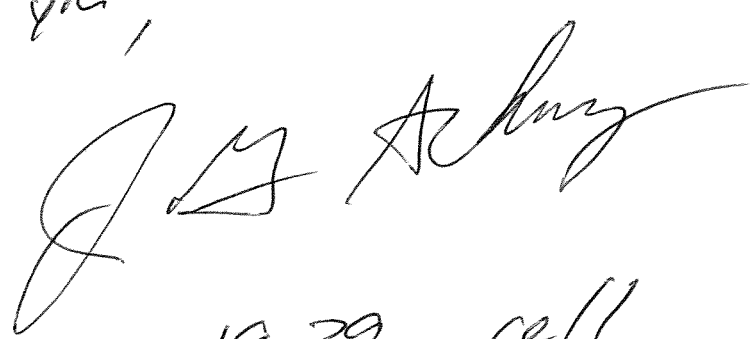

Please pardon my ~~data~~ correction and
note this in the permit so it is correct.

Thank you,
