RE: Applications to the Water Supply Bank
Water Right numbers 13-962, 13-963

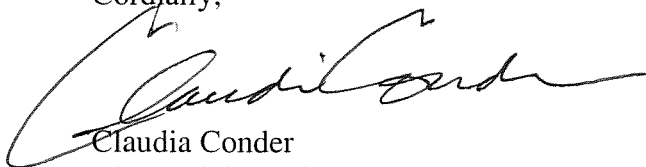

Dear Ms. Van Bussum,

Please find enclosed two completed applications to lease water to the water supply bank and a check in the amount of \$500.00 for the two application fees (\$250.00 each). PacifiCorp requests the placement of the non-consumptive water right 13-962, and the storage right 13-963, into the water supply bank. For the last 5 years, both rights have been protected from forfeiture by the filing and acceptance by the Idaho Department of Water Resources of an application for extension of time to avoid forfeiture of a water right. Both of these rights formerly supported the Cove hydroelectric development on the Bear River near Grace, Idaho. PacifiCorp decommissioned the Cove hydroelectric development in 2006, at which time the dam and flume were removed.

Leasing the water to the water supply bank will keep options available if a better way to utilize these rights becomes available. PacifiCorp requests that they not be made available for rent from the water supply bank. PacifiCorp will contact your office if any change is made to the determination of the best utilization of these rights.

Thank you for your consideration in this matter. If you have any questions, please contact me at 801-220-2252 or by e-mail at Claudia.Conder@PacifiCorp.com

Cordially,

Claudia Conder
Water Rights Administrator
