CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 1640 acres within the authorized place of use in a single irrigation season.
2. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.
3. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
4. The right holder shall maintain measuring devices and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the ground water diversions and all points of redirection.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 11th day of February, 2013.
