Subject: RE: Place of use overlap

Sandy,

I will just put a copy of this e-mail in the file. It explains the situation as well as anything. However, for the other permit you are working on that is also overlapped by 75-94, you will probably want to explain that despite the overlap, 75-94 isn't a valid water right.

Thanks,
c

Subject: Place of use overlap

Hello, I left 75-7605 in your inbox. The only place of use overlap, water right 75-94, was disallowed in the SRBA. I didn't mention that in the narrative. I am working on another license for the same owner that also overlaps 75-94. Should I have mentioned the disallowed water right in 75-7605 and should I include that information in the license I am currently working on?
