RE: *Water Supply Bank Request to Extend Lease Term for Water Right No. 25-14386.*

Dear Monica:

Enclosed for processing is a *Water Supply Bank Request to Extend Lease Term* for Water Right No. 25-14386 owned by the City of Ammon. We are submitting this extension in response to a letter dated January 9, 2013 that was signed by Christine Field on your behalf.

As contained in the enclosed form, we are requesting to extend the lease for two years until December 31, 2014. We have also included a map showing the municipal service boundary of the City of Ammon. The enclosed map is from a recent transfer approval of Water Right No. 25-14386, and only shows the existing city boundary. The map does not contain any identification of specific acres that are proposed to be idled for the duration of this lease. This is because the City of Ammon recently purchased this water right from Idaho Water Company LLC for future irrigation within the city. The City of Ammon already possesses existing municipal and irrigation water rights which cover the entirety of its service area. A spreadsheet showing the City's water right is enclosed. Water Right No. 25-14386 will be used for future growth, and as such, it has not been used within the city's boundaries since its purchase in 2012. We note that forfeiture of this right is not an issue, as the water right was previously in the water supply bank.

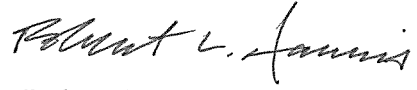

In compliance with the requirements of the enclosed form, we have also included the required filing fee of \$250 and a completed IRS form W-9.

Should you have any questions or concerns, please let me know. We appreciate your good work on this matter.
