Re: Amended Water Supply Bank Applications for WG Farms.

Dear Monica,

Attached are two amended WSB applications for water rights 36-2415A and 36-15356A appurtenant to the WG Farms permissible place of use on property in T.07S R.24E, 25E in Minidoka County, ID. The amended applications for water rights 36-2415A and 36-15356A propose to decrease the amount of acres under each water right to a total of 227.1 acres. Water right split calculations using methods acceptable to IDWR have been attached, as well as a map showing the proposed areas to be dried up under these water rights.

Payment associated with these amended applications was made in previous WSB application submissions. Please copy our office on all correspondence regarding these water supply bank applications. Thank you for your assistance on this matter and if you have questions or comments, please don't hesitate to call.

Regards,

Zach Latham, M.S., Hydrologist
