RE: Application for Point of Diversion Transfer – Second Request

Dear Applicant:

The Department has received the transfer application submitted to change a Point of Diversion for water right 74-15612. I have tried to contact you by telephone without success.

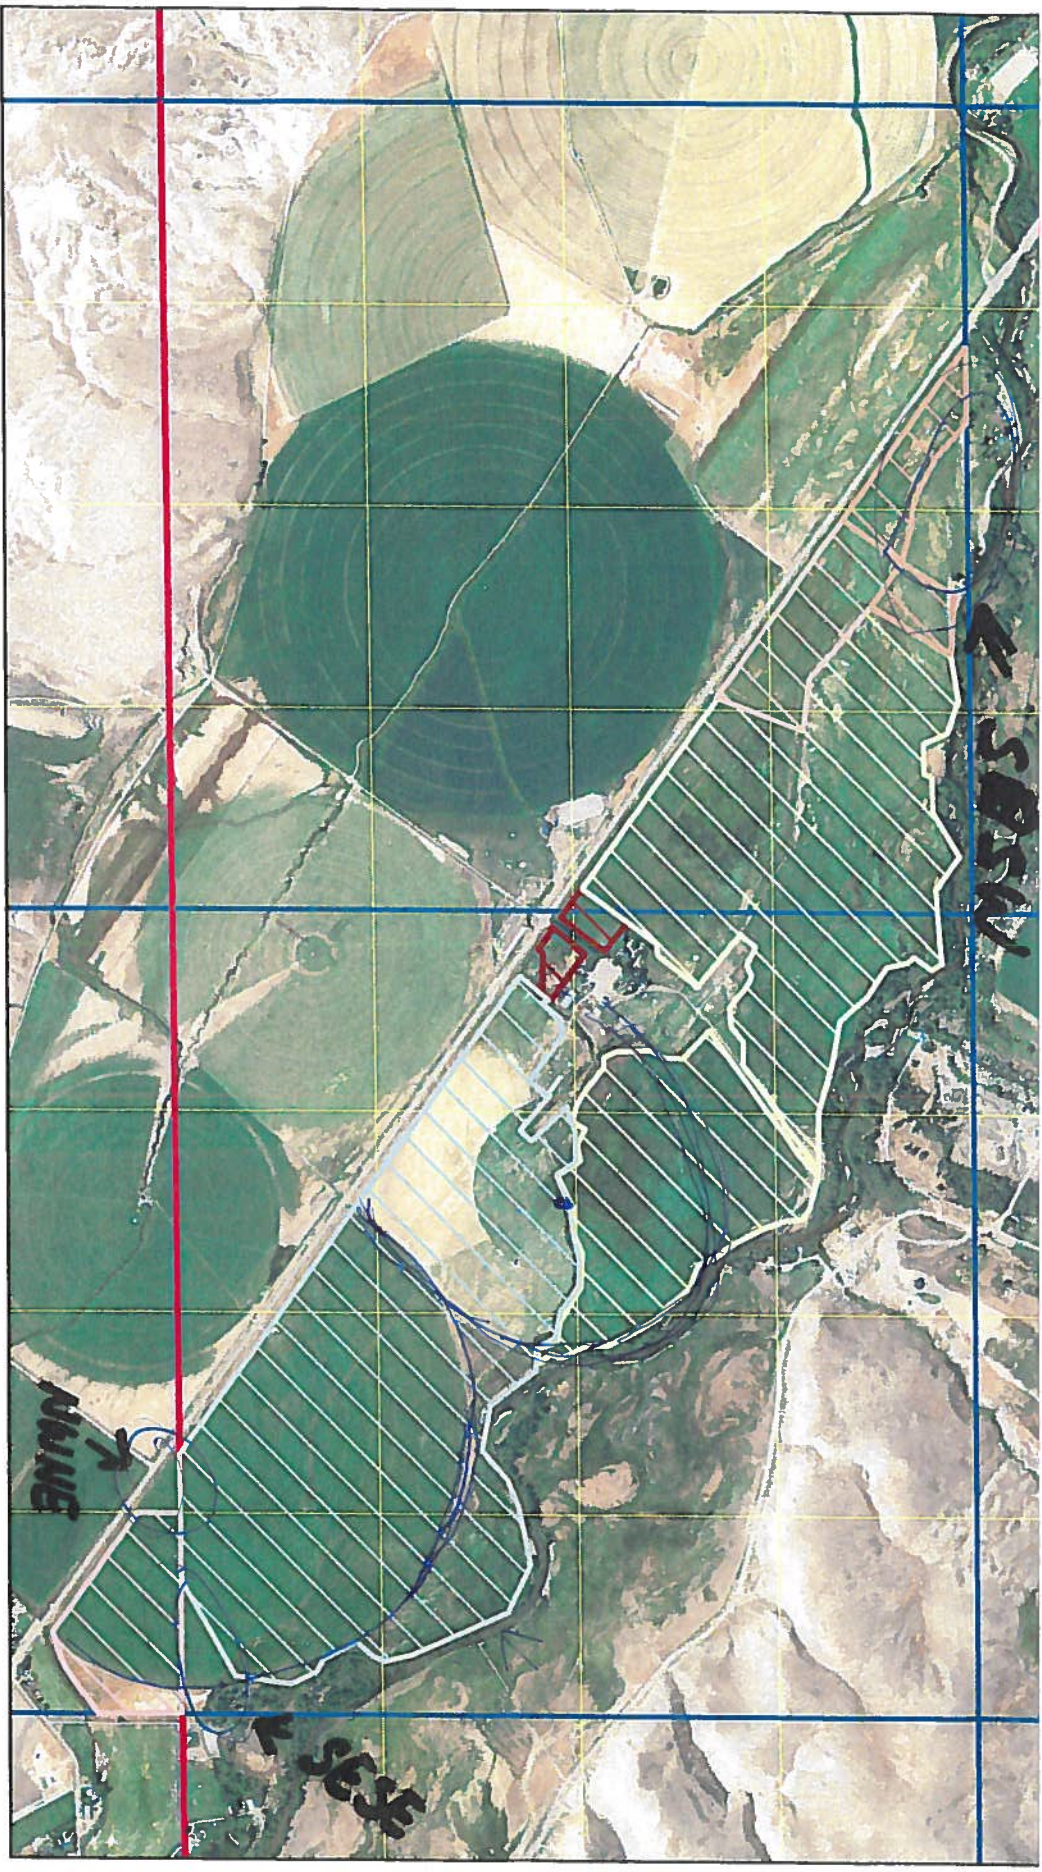

During the review of this application, it was found that there are portions of the ranch that are being irrigated which may not be included under the current place of use. I have enclosed a map for your reference. Since an application for transfer has been filed, this is the best time to correct your place of use to show actual irrigation practices.

I would appreciate it if you could give me a call to discuss this application.

Thank you,

Kerrie Mathews
