RE: Licensing Amendment for Water Right Permit No. 37-21151 and Field Examination
of Water Right Permit Nos. 37-8834 and 37-8835

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

 x **Point(s) of Diversion**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 14 days.

In addition to finalizing permit 37-21151, the Department would like to complete field examinations for permits 37-8834 and 37-8835 (copies enclosed). I will be in the Sun Valley area on May 3rd and May 4th and would like to schedule a time to meet with you. Please call me at your earliest convenience and I look forward to bringing Sun Valley Water and Sewer District's water rights to a final disposition. Thank you for your time and you may reach me at (208) 287-4944.

Sincerely,

Cherie Palmer, Sr. Water Resource Agent
Water Allocation Bureau
