**SURVEYOR COMMENTS:**  
During our survey, we analyzed the various deeds, recent surveys, old monuments set by unknown parties, the various lines of occupation, and parcels (verbal) evidence from Mr. Sorenson & Ma. Bleyendrider. It seems obvious that most parties believed, and have occupied parcels with little fall about 16.5 feet northwest from the dead line. These occupations have taken place for more than 7 years. No all-Memete Point of Beginning 14.5 feet northwest of that shown, was found. The monument shown as 'A' may have been relied upon by many parties. It is imperative that a difference between this line of occupation and the dead line be resolved.  
One solution would be to measure Outi Chaim Deakin between all affected parties, acknowledging the line of occupation. Another solution would be to place a monument on the line between the structures and the ocean road into the village of all affected parties. This would be a basis for a solution, to incentive parcels. This survey may serve as a basis for a solution. Until such time as said differences are resolved, we have monumented the dead corners.

I, John Russell, Idaho Professional Land Surveyor #49021, do hereby certify that this plot was prepared from notes taken during an actual survey made by me or under my direct supervision, from May – June 2007 and that it correctly represents the points, courses, and distances as recorded in said field notes.
