Subject: 2-7400 Ayarra water right

Importance: High

Hi Nancy,

I wanted to let you know that the amendment for licensing went through a additional review, and it was confirmed that the point of diversion is actually located in Lot 8 SESW, instead of SWSW. For this reason, a new Amendment will be sent to you for you to sign and return (no additional fees involved).

Also, according to the Warranty Deed that we have in our files, it shows both Marvin Wootan and Nancy Wootan husband and wife, as the owners of the property designated as the place of use described under water right 2-7400. Could you please send me an updated version of the warranty deed that shows just your name? Otherwise I will have to leave the water right in both names, and issue the License for water right 2-7400 showing both names. If you can scan and email it as an attachment that would be great, otherwise please fax a copy of the warranty deed as soon as possible to the number listed below, Attention: Sandy Hemenway.

As soon as I hear from you, or receive a copy of the updated warranty deed, I can complete ownership change, and once the new amendment for licensing is signed and received, I can License water right 2-7400.

Thanks so much,

Sandy Hemenway
