Monica,

These two rental contracts show half the PODs in Range **45E & 46E**. These were renewals of existing rentals that did have them all in 46E, but not all of the sections are found in 46E. These also have 2 more active years & it appears to me that the PODs are mixed-up.

Monica,

Looking at rental shapes for Danni.

The rental application & agreement show a POU in **13N** (low mountain area in Basin 74). The application also notes that the POU is the same as Rights 34-2459/60/61 etc. located in **3N** (same as rental shape on pivots).

Two more years on the rental, so we should correct the agreement before next year to reflect the actual location of use.

Let me know if my comments are wrong, or you have some other information.

Pam
