RE: WATER SUPPLY BANK LEASE APPLICATIONS FOR RIGHT NO. 22-616

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease to the Water Supply Bank. Based on that review, we cannot accept the water right into the Bank.

The Water Supply Bank Rules provide criteria to be considered when determining whether to accept a water right into the Bank. The criteria include assessing whether enlargement will occur upon rental of the right. Right No. 22-616 is considered stacked with other water rights and lease (and potential subsequent rental) of 22-616 as proposed would constitute enlargement. Therefore, we must deny your lease application.

Right No. 22-616 is authorized for 400 acres. However, there is a condition in the right limiting it, along with other rights. The rights and their authorized acreages are:

22-13016 + 22-312 + 22-487C =	253 acres
22-616:	400 ac
22-42:	40 ac
22-160:	160 ac
22-545:	90 ac
22-13160:	40 ac
Total:	983 ac
Authorized limit under water rights:	736.3 ac

The acreage under the individual rights or groups adds up to 983 acres. However, all of these water rights include a condition limiting them to a total of 736.3 acres. You would have to offer portions of all of these water rights to avoid enlargement. If you have any questions, please call me at (208) 287-4907.

Sincerely,

Monica Van Bussum
Sr. Water Resource Agent
