Conditions of Approval:

1.	214	Prior to the diversion and use of water under Transfer approval 77441 the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
2.	R67	This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
3.	004	This right does not grant any right-of-way or easement across the land of another.
4.	T07	The right holder shall accomplish the change authorized by this transfer within one years of the date of this approval.
5.	R05	Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 100.
6.	213	Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
7.	T19	Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
8.	R02	A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
9.	113	Beginning on the date of approval of Transfer 77441, the irrigation uses under right 22-14018 is limited to the following schedule of allowed use. The right holder shall file a notice of intent with the Department prior to the increased use of water under the right each time an increase according to the schedule is sought. Year 2011 through 2018 the rights are limited to 0.03 cfs, 7.0 afa and 2.0 acres. Year 2019 through 2023 the rights are limited to 0.04 cfs, 10.5 afa and 3.0 acres. Year 2024 through 2027 the rights are limited to 0.05 cfs, 14.0 afa and 4.0 acres. Year 2028 and beyond the rights are limited to 0.06 cfs, 15.4 afa and 4.4 acres.
		The combination of changes under: Transfer approval 77438 as described under rights 29-

10.	201	14012 and 29-14013; Transfer approval 77439 as described under rights 25-14345 and 25-14346; Transfer approval 77440 as described under right 36-16917; Transfer approval 77441 as described under right 22-14018; Transfer approval 77443 as described under right 27-12235; Transfer approval 77444 as described under right 25-14347; provide the necessary mitigation for any increased depletion to connected reaches of the Snake River that would result from each individual transfer. These transfer approvals shall not require mutual dependence for ongoing mitigation. Any future action, including a subsequent transfer of this right or an order rescinding a transfer approval, which would result in a change to the point(s) of diversion under this right may require mitigation for the effects of the change. Such future action to change the point(s) of diversion under this right shall be analyzed for effects to connected reaches of the Snake River based on the priority date, point(s) of diversion and steady-state quantity as authorized for this right.
11.	T08	Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
