Re: Lance Funk Transfer

Dear Mr. Cefalo:

It is the desire of Lance Funk to transfer a 120.0 acre portion of irrigation water rights 35-14080, 35-14083, 35-14088 and 35-14091. The POU and POD of the transfer portions of water rights will be changing. The POD will be located at an existing well at Township 06 South Range 29 East Section 34 NWNW.

The ownership, period of use and beneficial use will not be changing due to this transfer.

The current POD for these water rights is located in the ESPA model cell 76 107 and the proposed POD location identified in this transfer is located in the ESPA model cell 84 94. The ESPA Model analysis for this transfer indicates that no mitigation is required under the "2 Part Test Caveat" as described by Mat Weaver of IDWR (see attached email correspondence).

Please copy our office on all correspondence regarding this application.

Sincerely,

Greg Sullivan, M.S., E.I.T.

Cc: Lance Funk
