STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

Ident. No. 63-33707

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

WATER RESOURCES
WESTERN REGION1. Name of applicant(s) The Charles Madenford Family Trust Phone (208) 830-9911
Name connector (check one) ☐ and ☐ or ☐ and/orMailing address: 3605 N. Pollard Ln. City StarState Idaho Zip 83669 Email: debry@mail.com2. Source of water supply Ground Water which is a tributary of _____

3. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
5N	1W	33		NW	SW		Ada	Ground Water	

4. Water will be used for the following purposes:

Amount 0.25 cfs for Diversion to Storage purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)Amount 26 acre-feet/year for Aesthetic Storage purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)Amount 26 acre-feet/year for Recreation Storage purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)Amount 26 acre-feet/year for Wildlife Storage purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)5. Total quantity to be appropriated is (a) 0.25 cubic feet per second (cfs) and/or (b) 26 acre-feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. Well, pump, and pipe line.b. Height of storage dam 16 feet; active reservoir capacity 15 acre-feet; total reservoir capacity 15 acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11.For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☒ Yes ☐ Noc. Proposed well diameter is 6 inches; proposed depth of well is 188 feet.d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ Noe. If well is already drilled, when? March 31, 1989; drilling firm Dennis PhippsWell was drilled for (well owner) Lem Wallace; Drilling Permit No. 63-89-C-016-200

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. _____

b. Stockwatering; list number and kind of livestock. _____

c. Municipal; show name of municipality or the applicant's qualifications as a municipal provider. _____

d. Domestic; show number of households _____

e. Other; describe fully. Aesthetic storage, recreation storage, and wildlife storage.

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
5N	1W	33									X								

Total number of acres to be irrigated: - 0 -

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? 63-33605 domestic use from same well.

10. a. Who owns the property at the point of diversion? The Charles Madenford Family Trust
- b. Who owns the land to be irrigated or place of use? The Charles Madenford Family Trust
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. This Application for Permit is to store water in an existing pond that has been in use for years.

Capacity approximately (3 acres) (5 feet deep) = 15 acre feet

Refill / Evaporation approximately (3 acres) (3.5 acre-feet per year) = approximately 11 acre feet

12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Water bearing zone to be appropriated is from 91 to 188 feet.

**EXTENSION OF TIME TO AVOID
FORFEITURE OF WATER RIGHT**

New Union Ditch Company of PO Box 31, Eagle, ID, 83616, filed an Application proposing an Extension of Time to Avoid Forfeiture for Water Right No. 63-146 with an 1865 priority from the Boise River totaling 13.76 cfs. The application proposes to cover approximately 5.76 cfs. The balance of the right was last used in 2012. The right serves property located within the boundaries of New Union Ditch Company generally located in the Eagle area. The applicant requests the extension of time due to rapid urbanization of lands within their boundaries. The company does not want to lose any of Rt. 63-146 due to non-use.

PROPOSED CHANGE OF WATER RIGHTS

Jerry L. & Mary Louise Tlucek and Snake River Dairies LLC of 15188 S. Can-Ada Rd., Melba, ID 83641 filed Application No. 78269 to transfer two water rights with 1969 priority dates from ground water totaling 1.41 cfs. The purpose of the transfer is to create a permissible place of use and identify the two existing wells which are to be used for irrigation. Water will be used at the current place of use approximately 1.5 miles north of the Snake River and 1.5 miles east of the Ada & Canyon county lines.

Meridian Joint School District #2, Operations & Maintenance of 1303 E Central Dr., Meridian, ID, 83642 has filed Application Nos. 78266 and 78267 to transfer portions of one water right with a 1969 priority date from ground water totaling 0.80 cfs. The purpose of Transfer 78266 is to move 3 acres of supplemental irrigation water from Rt. 63-31763, appurtenant to Education Campus Subdivision, to Meridian Middle School Campus for supplemental irrigation. The purpose of Transfer 78267 is to move 2.5 acres of supplemental irrigation water from Rt. 63-31763 to Meridian Academy Campus for supplemental irrigation.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the rights, proposed transfer &/or extension, please see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp using the above referenced water right no. Protests may be submitted based on the criteria of Sec 42-222 and 42-203A, Idaho Code. Any protest against the approval of these applications must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 2/25/2013. The protestant must also send a copy of the protest to the applicant.

Re: Application for Permit

Dear Mr. Madenford:

You submitted an application for a new water right, an application for construction of a dam, proof of beneficial use for the anticipated water permit, and a well drilling fee upgrade for a 1989 well. The water right and dam applications are for an existing system including a well, dam and pond ("Loosli Pond"). In addition to water right approval, the system might require an approved dam construction permit.

You requested the water right application be expedited and then licensed so you can file a late claim in the Snake River Basin Adjudication (SRBA) in hope of obtaining a decreed right. You referenced a late claim deadline of January 31, 2013.

Current priorities for water rights staff at this office are (a) licensing existing permits for which proofs of beneficial use have been filed (significant backlog), (b) processing numerous applications filed before yours, and (c) completing other work on matters pre-dating your request.

Your application is for an existing system not requiring a SRBA claim. Urgent water needs or water problems are not involved. Without a compelling reason, IDWR cannot use its limited resources to expedite an application, let alone expedite licensing if the application is approved. There is no compelling reason in this case.

Therefore, I regret to decline your request. Your application will be processed sometime in the next few months. Please let me know if you have any questions about this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Steve Lester'.

RE: Processing Permit to License Prior to December 31, 2012 for Submission to the SRBA Court prior to Basin 63 closure on January 31, 2013.

Dear Mr. Lester,

This request is to ask you to please process this permit application prior to December 31, 2012 for the purpose of submitting the claim to the SRBA court prior to the deadline. The agreement between the Court, IDWR, and myself was to process the necessary changes to an earlier claim filed with the court and to get the changes back to the court. Since then, Judge Wildman issued an order with a deadline of January 31, 2013 for all late claims in Basin 63. As a result, this permit would need to be noticed and processed in sufficient time to enter it into the court, prior to the 1/31/13 deadline.

This property was previously owned by Mr. Dennis Loosli and I purchased it from the bank in August 2011. After further investigation, it was determined that the water right for aesthetic, recreation, and wildlife storage had not been obtained for the existing pond. A deminimis claim for this use was submitted to the court and heard on September 18, 2012. The Court asked that I meet with IDWR and make their requested changes. As directed by the court, I then met with Nick Spencer, Craig Saxton and one other at IDWR on September 25, 2012. They recommended that I do two things, first amend the deminimis right regarding certain elements; and second, file for a permit for the storage portion of the right. I then prepared an amendment to the deminimis claim as they requested and submitted it to the Court and to the IDWR State Office. The second portion, or the permit for the storage right, was prepared and brought to the SW Regional Office on October 17, 2012. Mr. Robert Whitney, who was at the SW Regional Office at the time, recommended some changes to the permit, which I did. I then met with you on October 18, 2012 and you recommended further changes to the claim. I have made those changes also. I am now submitting the completed package to you for processing.

A proof of beneficial use form has also been attached with Google Earth aerial photos taken in 2003, 2007, and 2009 showing water in the pond. Mr. Whitney has also been to the pond and is familiar with it. He also suggested that I give you some measurements of the pond for your use. In very general numbers, the maximum width is 250' , the maximum length is 500', the surface

area is approximately 3 acres and the average depth is approximately 5', for a total of 15 acre feet, with an additional amount of refill / evaporation of approximately 11 acre-feet.

Attached are the following documents:

- Application for Permit, with a check for \$250.00
- Application for Construction or Enlargement of a New or Existing Dam, with a check for \$220.00
- Statement of Completion for Submitting Proof of Beneficial Use, with a check for \$100.00

I must say that my experience working with the both you and Mr. Whitney at the Western Regional Office has been very positive and I greatly appreciate the qualified and competent assistance you have given me. If it is at all possible, please process this claim to license at your earliest convenience, prior to meeting the SRBA's court deadline on January 31, 2013. Thank you for your assistance.

Sincerely Yours,

Gary A. Madenford
Trustee

The Charles Madenford Family Trust
