

August 20, 1979:
Application filed for 215
acres from GW (2PDs)
decreed rights overlap 45-
2731 from GW w/ 1966
priority date.

August 17, 1984: Request
for extension received
saying 100 acres have
been cleared for a cost of
\$3500.

June 9, 1989: Dept
received the Trust Water
Questionnaire that said
that water was not
developed prior to July 1,
1985.

July 31, 1989: Continuation
order issued that added
trust water language to the
permit and stated that
beneficial use occurred
prior to July 1, 1985 (??FOF
#5).

Refers to 45-2731

August 21, 1989: Request
for extension received
saying that \$8300 total has
been spent on 15 acres in
dryland hay with mainline
pipe laid.

March 14, 1990: PD was
deepened 458' that was
originally drilled in 1966

December 19, 1991:
Amendment of permit
received to change PD
and change POU to 124
acres

Water right license issued
on 11/2, 1994 with
combined limits w/ 45-
2731 since they share the
same PD

Substantial investment is
defined as \$15,000 spent
or 25% of the total cost to
develop the WR

Has beneficial use taken place under 45-7385 by October 25, 1984? NO

Did the right holder spend \$15,000 by October 25, 1984? NO

Did the right holder invest 25% of the total cost of development by October 25, 1984? Maybe, will have to find out how much it cost to deepen the well and complete the development. The cost would have to be \$14,000 or less.
