RE: Change in Ownership for Water Right 72-4R

Dear Mr. Dansie:

It has come to the Department's attention that you may own land that has water right 72-4R appurtenant to it and would like to update the ownership of that right from Steve and Marjorie Phillips to your name.

For your convenience I have included a report of the water right. Please review the water right report and notice that the water right has a specified point of diversion, nature of use and place of use. If you own the property that water right 72-4R encompasses, and plan on changing any of these, including adding a new point of diversion, then an Application for Transfer is required.

If you do not plan to change any items on the water right and you own the property that it encompasses you are required to file a Notice of Change in Water Right Ownership Form along with the proper documentation and fee with the Department.

I have enclosed an Application for Transfer and a Notice of Change in Water Right Ownership Form along with instructions for your use.

If you no longer own the property in question, please disregard this letter. Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Our website has more information on Ownership Changes and Transfers at www.idwr.idaho.gov.

If you have any questions please contact this office.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Cherie Padilla'.
