Mr. Director,

My name is Lee Reid, address 1780 West 400 North Blackfoot, Idaho 83221.

I protest the allowance of Mr. Allen Young and Jacqueline Young application

or any other property in the Snake River Basin.

I have original water rights on the property Section 18, T2S R33E. This property as was explained by Idaho Water Resources representatives as outside the demarcation line for any diversion allowance. Reference; my meeting in December with those representatives. I do hold the right as proof I own the document dated Aug. 22, 1990 sent from the Idaho Water Resources Department, Idaho Falls, Idaho.

Also in discussion with the director at that time the claim was made that I was able to pump as much as I wanted when I was ready.

I completed the installation of my well and installed a 1600 gpm pump to irrigate the 137 acres of Mr. Ronald Funk Senior across the gravel road plus the 28.5 acres on my north side. At that time there was a hand shake agreement to water the property using my money for the permit and pumping installation. At no time was the water permit forfeiture, for non use. There has been explicit discussion with Mr. Ronald Funk Senior about installation of the transporting system but he couldn't afford to install due to economic conditions at that time.

Sincerely, Lee Reid
