RE: Request for Additional Information for Licensing Review for Permit No.85-7603

Dear Mr. or Mrs. Kuykendall:

I am currently reviewing Water Right Permit No. 85-7603 for Licensing purposes. I have a few questions, before I can make my final recommendations. Please answer the following questions, and return them as soon as possible in the enclosed self-addressed envelope, by phone, or email by January 4, 2013, or Domestic, Domestic Storage and Domestic from Storage will not be included on the final License.

1. Describe in detail how Domestic Use, and Domestic from Storage are obtained and for what purpose i.e. domestic external use for lawn and garden, etc.
2. In the notes, it describes a head gate from which a 4 inch pipe is run across the hillside with gravity flow to the pond. Do you know the dimensions of the head gate? Is this system the same, or have there been changes?
3. At the pond to achieve Domestic Use, is a pump used, and if so what is the Hp, make/model and serial number, and discharge size of the pump?
4. If a pump is used, where on the enclosed map is the pump located?
5. Are the rainbird nozzles that are in the yard and garden area connected to your groundwater source (well) or to your surface water source (pond)? If connected to the surface water source, what size and type pipe goes from the pump in the pond to the nozzles?
6. Do you use the water for any other uses i.e. stock water, etc?

I have enclosed a copy of an aerial map of your location, a copy of your water right permit, and a self-addressed envelope. If you have any questions, please contact me directly at (208) 287-4920, (208)761-0280 or via email: sandy.hemenway@idwr.idaho.gov

Sincerely,

Sandy Hemenway
Sr. Water Resource Agent
