RE: Water Right Permit 57-7655

Dear Mr. and Mrs. Watkins:

The enclosed map aerial photography shows the land around water right permit 57-7655, at 15405 Bates Creek Road, near Oreana. On July 20, 2000, you submitted proof of beneficial use for the irrigation of 30 acres and we would like to acknowledge the full extent of that use. The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that all the requirements for establishing a water right were met. No water right license can be issued, however, if the development authorized by the permit did not occur within the authorized time period. Please show the place of use and the point of diversion for irrigation from the ponds shown on the aerial photography and return a copy in the enclosed self addressed stamp envelope. I have included a copy of the aerial photography for you records. Thank you for your time.

Respectfully,

Sandra Thiel
Water Resource Planner
