Darla,

A one year extension will be fine as the ponds are now full and I can show their "beneficial use" come Spring, 2013.

Sincerely, James McNamara

Re: Extension Request Filed for Permit No. 95-9401

Dear Permit Holder(s):

The Department is in receipt of your extension request filed on October 23, 2012, for which you have requested a (1) year extension of time for submitting proof of beneficial use for the above referenced permit. Your permit allowed the initial (5) year development period. After the initial (5) year development period, you are only allowed to file one request for extension of time for up to (5) more years.

You could ask for your extension request to be modified to reflect more time up to (5) years, if you find it necessary. In order for me to make any changes to your form, I would need a written response from you requesting that your extension request form be modified to reflect a later end date.

If you decide to leave your extension request as a (1) year extension, this will be considered your last extension request allowed because you will have gone past the initial (5) year development period on this extension.

Please reply and respond with the extension end date you would prefer. Either to keep this extension as a (1) year extension, or to change this extension to add additional time.

Sincerely,

Darla Block
