Subject: RE: 63-4023A & 63-4086A

Danni,

Thanks for taking my call a moment ago. As we discussed, this office represents M&C Stanley, LLC regarding transfer of the above-referenced water rights in addition to 63-04980, 63-04981 and 63-04982 as listed on the Notice of Change in Water Right Ownership we filed with IDWR on January 3, 2013.

This will confirm, as we discussed regarding 63-4023A and 63-4086A, that these rights were **not** split as a result of the subject conveyance and transfer of the underlying real property, and that I checked the "Yes" boxes indicating that they were split in error. I understand that otherwise our Notice of Change and supporting documents are in order and that you will process the transfer in the records of IDWR.

As you suggested, please list me as the attorney of record in the file and copy me on any notices and correspondence regarding these water rights. Please let me know if you need any further information. Thank you for your help.

/s/ Pete Ware.

Received a Change of Ownership on January 3, 2013. In reviewing the change I do not see that a split for the above two rights is required. According to the Special Warranty Deed attached to the Change of Ownership indicates all of the 5 water rights were to be transferred to you entirely. Please confirm the intent of the split by indicating on a map which portion of the rights you will retain or confirm the rights are not to be split.

I left a phone message for you this morning, but thought I would email you also. Once you respond I can proceed to process the change.

If you have questions please call me at 287-4910.

Thank you,

Danni M. Smith
