Subject: RE: 70929 Eastfield At Bellevue Farms HOA - NEARLY READY FOR ADVERTISING

Pam - If you will read the "Describe the reasons for the proposed changes" portion on Page 1, you will see that the pou question is dealt with. I did not describe this as a pou change under Purpose of Transfer because there is no actual change. The new law requires no advertising in this case, so I saw no reason to confuse the issue; this is a pod transfer. But I can change the NO to YES under POU if you think it is necessary.

With regard to the SRBA, the last I heard they hadn't even decided which agents would review this area. Trying to talk to somebody about this transfer now would be pointless, as they are all trying to finalize director's reports in various basins. The SRBA is usually a bottomless pit when it comes to transfers (time-wise), and it would be totally unfair to the applicant to get this thing buried. I know this guy, and he will probably call the governor if we don't get this thing processed ASAP! This is a valid license and a simple pod change (with a slight tweeking of the pou due to better data), so I see no reason to involve the SRBA until the transfer is approved. So I plan to give the file to Mary right away unless I hear otherwise.

Jim,

I looked this one over & it looks pretty good.

Did you check with AJ about the status of the overlapping surface rights that you are including in combined right limits? Do they agree that the full rate will be recommended under those rights? Acres & rate don't worry me since they are the same as the transferred gw right. Should note in your memo any coordination done with AJ staff regarding the sw rights.

Need to identify that the p/u is also being changed by the transfer (acres shifted slightly) under purpose of transfer.

That's it! Everything else looks good. Address these 2 things & it is ready for advertising. Let me know about the AJ recommendation & when you are sending to Advertising so that I can track the transfer.

Pam

Subject: 70929 Eastfield At Bellevue Farms HOA FIRST CONTACT (Change p/d 37-2557Y)

Pam - This app has been scanned, and is ready for your review. The applicant has been bugging me to process this, so hopefully you can find the time to check it out. They want to drill a new well so it will be ready this summer when their river right gets short. Thanks.
