RE: Permit No. 37-8842

Dear Permit Holder(s):

Water right permit 37-8842 (copy enclosed) issued 19 May 1995 authorized Glenn L. Liffick to develop a water right by constructing a well on Lot 5 in Quarterhorse Crossing Subdivision and initially diverting water to Lots 1-5. Ultimately Lots 1-5 were to be served by the Bellevue water system and the domestic well would serve only Lot 5. Pursuant to the permit, construction of the well and diversion of water was to be completed by June 01, 1997.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that you have met the requirements for establishing a water right. In our effort to complete the water appropriations process and issue a license for permit 37-8842, Department of Water Resources (IDWR) personnel conducted a review to verify the water use developed is consistent with the conditions of permit 37-8842.

Tax records show Lot 5 is now owned by QC Properties LLC. Therefore to pursue the water right please complete the enclosed Assignment of Permit and return it with the appropriate fee to IDWR within 30 days from the date of this letter. Current aerial photography indicates a domicile is not constructed on Lot 5 of Quarterhorse Crossing Subdivision. Therefore please provide also information about which lots are currently served by the well or approximate date the respective lots were disconnected.

Please contact this office if you have any questions regarding this matter.

Sincerely,

Chad F. Hersley, P.G.
Technical Hydrogeologist
