Subject: RE: USFS Documents for Formation Capital Corporation Cobalt Mine

Hi Scott,

Was there any follow-up regarding plan approval? The first paragraph notes, "This document lists the modifications required for approval of your plan." Thanks!

Monica

Dear Monica:

I have attached the U.S. Forest Service approval letter for the Plan of Operations for the Idaho Cobalt Project, the Formation Capital Corporation mining project. This document responds to your request for approvals from the U. S. Forest Service to support the Water Supply Bank Rental Application and the Lease Application in the name of Formation Capital Corporation.

If you require additional information, please contact me. I would also appreciate confirmation that the provided documentation satisfies your request.

Thank you again for your assistance.

Best regards,

Scott

Subject: lease and rental for Formation Capital (75-7073)

Hi Scott and Dylan,

I am looking at the Formation Capital Corp lease and rental applications for Right No. 75-7073 and just have a quick question. The rental application says Formation Capital does not own the land at the POD or POU but it does have "Mining claims and U.S. Forest Service approval of mine operations plan."

I've been looking at the file and don't see that we have any documentation on hand that the USFS has given authority for the operation. I know we had this same transaction approved from 2008 through 2012 so I don't anticipate any issues, but it would be nice to close this loophole in our files. Do you have any paperwork from USFS?

It looks like both of you have been contacts for this right at various times, so I thought it best to email you both. Thanks for your help.

Monica
