Total Acres: 5.4

CONDITIONS OF APPROVAL

1. The point of diversion for this water right shall be located downstream from the point of diversion for water right 63-31727 at a distance sufficient to prevent water level fluctuations at the point of diversion for 63-31727.
2. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the lands above.
3. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.

State of Idaho
Department of Water Resources
Water Right License

WATER RIGHT NO. 63-31731

4. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 17th day of December, 2012.

for GARY SPACKMAN
Director

State of Idaho
Department of Water Resources
Attachment To Water Right License
63-31731
