CONTINUATION ORDER

This matter having come before the Idaho Department of Water Resources (IDWR) as a requirement of Section 42-203D, Idaho Code, the Department Finds, Concludes and Orders as follows:

FINDINGS OF FACT

1. Section 42-203D, Idaho Code, directs IDWR to review all permits issued prior to July 1, 1985, located within the Swan Falls Trust Water Area, to determine if water was beneficially used prior to said date.

2. If water was not beneficially used until after July 1, 1985, Section 42-203D further directs IDWR to review the permit under the provisions of Section 42-203C, Idaho Code.

3. Section 42-203C requires IDWR to determine whether diversion of water under a permit issued prior to July 1, 1985, causes a significant reduction of trust water available for power production and, if there is a significant reduction, to determine whether the reduction is in the public interest.

4. Permit No. 37-7838 (permit) was issued to Y-3 Ranch &/or Ronald C. &/or Sheldon Yanke (permit holder) authorizing the diversion of 4.0 cfs of groundwater for irrigation of 320 acres.

5. IDWR records show that 246 acres authorized to be irrigated under Permit No. 37-7838, are irrigated with other water rights perfected prior to July 1, 1985.

MICROFILMED

SEP 26 1989

6. Water diverted and used on or after July 1, 1985 for the irrigation of land under the terms of this permit is trust water.

7. The development and use of groundwater authorized under this permit does not cause a significant reduction of trust water.

CONCLUSIONS OF LAW

1. The water authorized for diversion under Permit No. 37-7838 is trust water.

2. The use of water under the permit satisfies the provisions of Sections 42-203C and 42-203D, Idaho Code.

3. An order continuing the permit shall be issued.

ORDER

IT IS HEREBY ORDERED that Permit No. 37-7838 is valid and may CONTINUE as provided in Section 42-203D, Idaho Code, subject to the following additional conditions and limitations:

1. Proof of construction of works and application of water to beneficial use shall be submitted to IDWR on or before October 1, 1990.

2. The use of trust water authorized by this right is subject to review 20 years after the date of this order to determine availability of trust water and to reevaluate the public interest.

3. The construction of diversion works must be commenced within one (1) year of the date of this order and shall proceed diligently and uninterruptedly to completion unless temporarily interrupted by circumstances over which the permit holder has no control.

4. Diversion and use of trust water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.

MICROFILMED

SEP 28 1989

5. The Director retains jurisdiction of this right to change, add or remove any requirement as determined to be appropriate.

6. All conditions of approval contained on the permit are incorporated into and made a part of this order.

3. **Narrative:** Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

Well, motor, pump, mainline to 6 1/4-mile handlines. Well sits in the upper end of a seepage pond that holds some trout. A screen is around the outside of the casing. 3 ~~the~~ ^{the} rotating sprinklers keep weeds off the screen & help oxygenate the pond, & add a small amount of water to the pond. Also, a little water can be run into an irrigation ditch above the well (which normally has Big Wood R. water but which is now dry) for transportation down to the farmstead for watering of lawn. Pond sits in an area of heavy gravel, & apparently fills naturally with seepage. Pond appears to be unrelated to the irrigation system.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Although this well can be pumped into the main irrigation canal from the Big Wood River for use anywhere on this farm, it is mainly used on the 80-acre field near the well. Proof was filed to cover only this field, & Sheldon Yanke requested that the well be licensed only for this field. I have complied with his request. Recommended season is what was applied for on permit.

Although the land lists differ, License 37-7113 waters the same 80 acres as this well. Not to exceed 1.60 cfs when combined or 3.5 AFA/acre. This well is used in good water years when seepage is plentiful. When seepage is reduced by drought, the other well is used as needed to supplement this well.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 37-07838

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a measuring device to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the measuring device must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Nina Shields
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 37-07838

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

MEMORANDUM

TO: FILE/PERMIT 37-7838
FROM: TIM LUKE
RE: SWAN FALLS PROCESSING
DATE: 6-9-89

An overlap analysis was done for this permit with rights appurtenant to the same land and listed by the permit holder on the trust water information questionnaire.

Three of the four existing rights are old decreed rights. There is no specific listing of number of acres per quarter-quarter section for these decreed rights. Only the quarter-quarter tract is shown in the data base. Assuming that the decreed rights cover the full 40 acre quarter-quarter section tracts, the overlap analysis shows that there are 120 acres under permit 37-7838 which are not covered by the existing rights. The permit holder states that there are only 40 acres not covered by the earlier rights. Our analysis shows that this is incorrect.

Review of the department's 1986 remote sensing land classification report shows that 246 of the 320 acres under the permit were classified as irrigated agriculture in that year. The remaining 74 acres are classified as non-irrigated. Review of the department's 7.5 min 1974 orthophoto shows that over 200 of the 320 acres were not irrigated at that time.

I spoke w/ Mr. Stokes on 6/9 & Asked him to provide us w/ aerial's from Blaine Co. ASCS. office. He said he will work on that.
Received photo's from Stokes on 7/31/89. Photo's Undated (But probably 1984 NHAP). Photo's show approx 240 acres irrigated. Review of 1984 NHAP @ SCS state office matches photo submitted by Stokes. Therefore, will use 1986 report figures & count 74 acres as ~~lost~~ ^{lost} acres.

Dear Mr. Luke:

Thank you for your explanation in regard to this application.

Please find a check for \$20.00 to readvertise this application. As stated in our request for a time extension, a 16" well has been drilled but did not produce as anticipated. We need time to reevaluate the information and drill deeper or drill another well before the permit can be completed.

I have shown on the attached questionnaire, the other water right permits that also cover the place of use anticipated for this well.

There are really only 40 acres of new acreage included in this 320 acre application.

Please let us know if you need additional information on this application.

Very truly yours,

Re: Permit No. 37-7838

Dear Permit Holder(s):

NOTICE OF PENDING ORDER CANCELLING PERMIT

On August 19, 1980, the Department of Water Resources (Department) issued Permit No. 37-7838 which authorized the diversion of 4.0 of water from a groundwater source for the irrigation of 320 acres.

The Department mailed a letter and questionnaire to you on April 6, 1989 in connection with the permit. The letter provided notice that the Department was reviewing the permit in connection with development which was not complete prior to July 1, 1985.

This letter also requested that you return the Department's questionnaire concerning any prior development under the permit and/or your plans for pursuing completion of the proposed project. The correspondence further requested that you submit with the questionnaire either a re-advertisement fee in the amount of twenty dollars (\$20) and/or evidence showing that development under the permit was complete prior to July 1, 1985. Finally, the letter notified you that failure to submit the required fee or information within thirty (30) days of the date of the letter was cause for the Department to cancel the permit.

The purpose of this letter is to provide a second and final opportunity for you to submit the requested information. If you fail to respond to this inquiry within fifteen (15) days of the date of this letter, the Department will issue an order cancelling the permit pursuant to Water Appropriation Rule 4,2,3,4.

If no development has been completed as authorized by the permit, and you are no longer interested in pursuing the development, please complete and return the enclosed relinquishment form.

Please feel free to contact me if you have any questions concerning this matter.

Sincerely,

TIM LUKE
Sr. Water Resource Agent

RE: PERMIT NO. 37-7838

Dear PERMIT HOLDER:

Due to the Swan Falls litigation, development proposed by the enclosed permit may have been delayed. The Department is presently reviewing the permit and may authorize completion of development proposed under the permit.

The purpose of this letter is to determine: (1) the extent of development under the permit, and (2) your continued interest in developing or completing development under the permit.

Enclosed are two forms which will help the Department expedite the reprocessing of the permit.

Please complete and return the enclosed questionnaire if you wish to continue with your plans of development or have completed all or a portion of your development before July 1, 1985.

Please complete the enclosed relinquishment form and return it to the Department if you have abandoned or have no interest in continuing with your plans for development of the project.

If the entire project was not completed prior to July 1, 1985, and you still wish to proceed with your plans of development, then you must submit a \$20.00 re-advertisement fee to the Department as required by Water Appropriation Rule 4,2,3. and Section 42-221F, Idaho Code.

Failure to return the questionnaire and pay any required re-advertisement fee within thirty (30) days of the date of this letter is cause for the Department to cancel the permit.

If the incomplete portion of your project is for irrigation of more than 200 acres, the Department will issue a notice requesting additional information as required by Water Appropriation Rule 4.5. (copy enclosed).

RE: PERMIT NO. 37-7838 - REQUEST FOR EXTENSION OF TIME

Gentlemen:

The department has reviewed the request for extension of time submitted in connection with the above referenced permit. Since the permit is within the Swan Falls trust water area and has been named in Ada County Civil Case No. 81375 and not dismissed, the department will hold the request without action until the permit is reprocessed in compliance with the provisions of section 42-203D, Idaho Code.

The issuance of an order on March 25, 1988 by the Federal Energy Regulatory Commission (order effective May 24, 1988) made the Swan Falls Agreement effective. As a result of the order, the department is determining which permits can be reprocessed in a given year up to the 20,000 acres per year limitation.

When additional development under the permit can be authorized, the department will consider the request for extension of time and will advise you accordingly of our action.

Sincerely,

L. GLEN SAXTON

PROOF DUE NOTICE

RE: Permit No. 37-7838

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NO COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. RULES AND REGULATIONS GOVERNING THE RE-EVALUATION OF PERMITS ARE NOT YET FINALIZED. HOWEVER, IF YOU COMPLETED THE DEVELOPMENT UNDER YOUR PERMIT BEFORE JULY 1, 1985, YOU SHOULD SUBMIT A PROOF OF BENEFICIAL USE STATEMENT, STATING THAT THE PROJECT WAS COMPLETED BEFORE JULY 1, 1985 SO THAT YOUR PERMIT WILL NOT BE SUBJECT TO THE REVIEW REQUIREMENTS OF SECTION 42-203D, WHICH READS AS FOLLOWS:

42-203D. REVIEW OF PERMITS - OPPORTUNITY FOR HEARING. - (1)THE DEPARTMENT SHALL REVIEW ALL PERMITS ISSUED PRIOR TO THE EFFECTIVE DATE [JULY 1, 1985] OF THIS SECTION, EXCEPT TO THE EXTENT A PERMIT HAS BEEN PUT TO BENEFICIAL USE PRIOR TO JULY 1, 1985, TO DETERMINE WHETHER THEY COMPLY WITH THE PROVISIONS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT. (2)THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

YOU MAY OBTAIN PROOF OF BENEFICIAL USE FORMS FROM THE DEPARTMENT. IF YOU HAVE ANY QUESTIONS, PLEASE LET US KNOW.

Gentlemen:

Re: Permit No. 37-7838

Enclosed is a copy of the approved request for extension of time. The time within which to submit the statement of beneficial use postcard is extended to September 1, 1987.

In connection with the development of a water right under this permit, the Department wishes to call to your attention an Idaho Supreme Court decision issued in November 1982 which likely could affect your future use of water.

The decision in the case of Idaho Power Company vs the State of Idaho, et al stated in part that Idaho Power Company's use of water for power generation purposes at the Swan Falls dam on the Snake River is not subordinated to upstream depletion by later in time uses. The question of whether Idaho Power's 8,400 cfs water right at Swan Falls dam has been diminished by subsequent development, however, was remanded back to district court for determination. The findings of the district court could restrict water availability or require compensation to Idaho Power Company for uses developed later in time than Idaho Power Company's water right at Swan Falls dam.

Sincerely,

RITA I. FLECK
